Welcome to the **easyEmbroidery File Organizer™** Lessons series. This lesson will show you how to view all the Embroidery Files in a category, and how to add and delete Embroidery Files in Category Embroidery Files form.

Adding an Embroidery File to the Category Embroidery Files form

1. To begin, open **Easy Organizer Suite™** and select the **easyEmbroidery File Organizer™** Module. If you are not already in the **easyEmbroidery File Organizer™** Module, then select Modules → Embroidery File Organizer → easyEmbroidery File Organizer from the menu, or you can click on the **easyEmbroidery File Organizer™** icon in the toolbar.

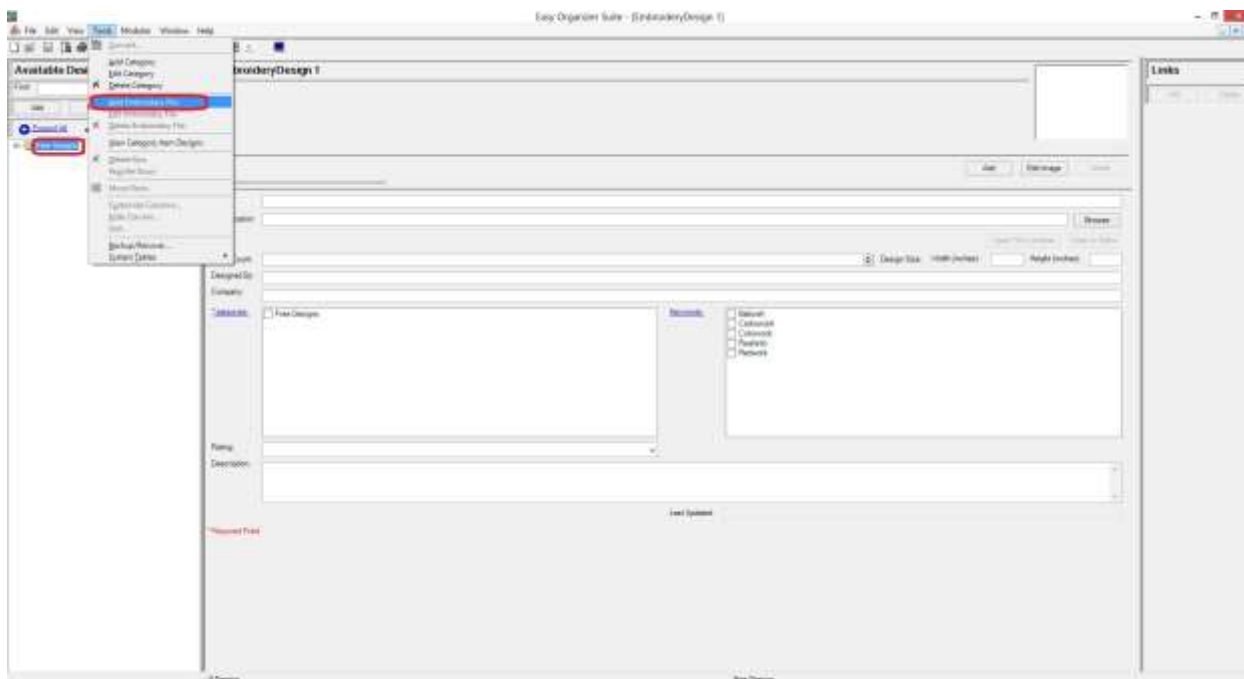

2. First, we must add a new Embroidery File Chart that is in a different category than the one we intend to view.

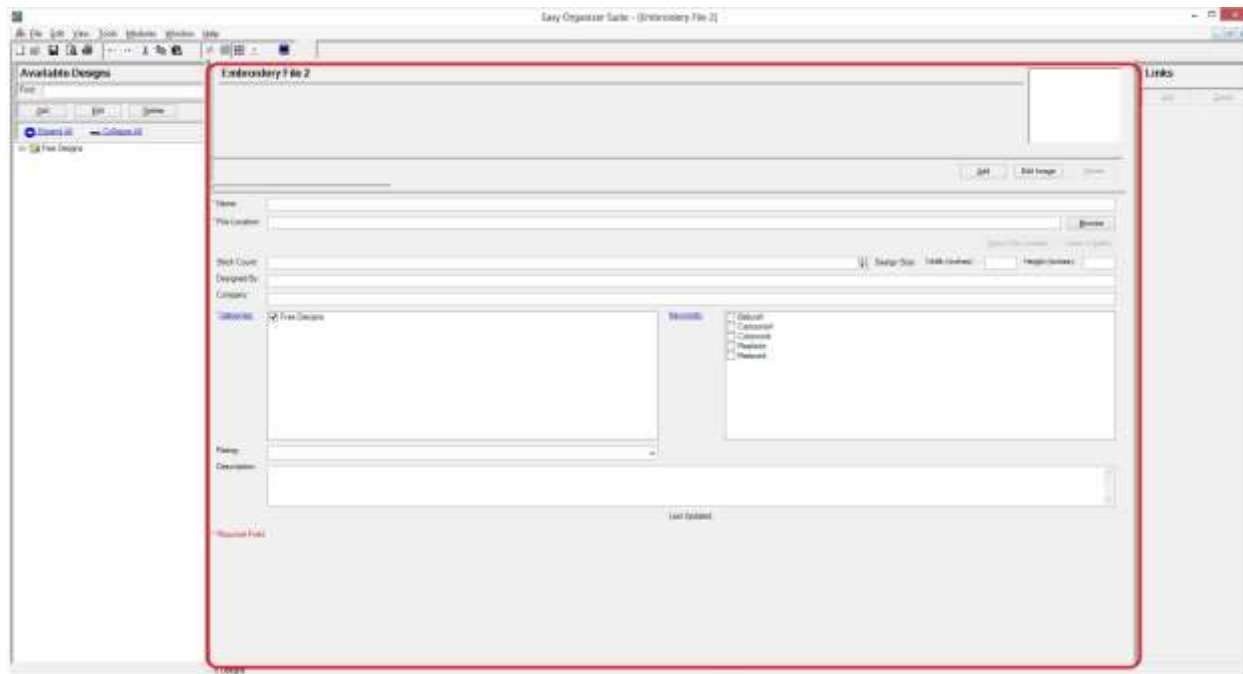

To add a new Embroidery File Chart, select a Category in the Available Embroidery Files pane first.

For this lesson, let's pick Free Designs. To select it, click on the Free Designs category in the Available Embroidery Files tree.

3. Then click on Tools → Add Embroidery File from the menu. You can also right click in the Available Embroidery Files pane and select Add Embroidery File Chart from the context menu. Or you can select File → New in the menu.
